Sire: Wanganella 130816

Dam: HR Special Stud AI ewe

Stud Master's Comment: *"175 is very well put together with a long, open, sire-y head and well set horns. He has impressive length of body and a deep flank – this is a well filled-in ram. Supporting a gutsy, well-defined and lustrous medium wool with great lock and nourishment."*

Semen available, minimum 50 doses, \$40+GST per dose
